MEMORANDUM FOR THE RECORD

SUBJECT: Additional [REDACTED] PIGMI Readout Equipment

After discussion with [REDACTED] has decided that the only additional equipment we'll need to make the PIGMI compatible with our computer will be three fixed price items: (1) Electrotypewriter C, Friden Tape Punch and Translator with Alvac III Code, with the total price of [REDACTED]. Since these are fixed price items, their purchase should not affect our present CPFF contract for the PIGMI. Our next step should be the preparation of the requisition for these items. The Office of Logistics should notify [REDACTED] to proceed with the ~~modification of~~ the PIGMI in accordance with the original contract and to include the addition of these fixed price items. Since [REDACTED] has indicated that they stop work as of Monday, 10 April, notice should be given to [REDACTED] as soon as possible so we do not incur any additional expense.
